Internship

Software Engineer Intern || Supratech Solutions — Jan 2026 – Feb 2026

- Developed full-stack features using **React.js, Node.js, Express.js, and MongoDB** for web applications.
- Built and integrated **RESTful APIs** connecting React frontends with backend services.
- Implemented and maintained authentication, authorization, and CRUD workflows across application modules.
- Debugged and optimized frontend/backend functionality to improve application reliability and user experience.
- Used **Git/GitHub** for version control and collaborative development.
- Assisted with testing and deployment of web application features.

Projects

ATLAS: AI Intelligence || *Backend and Integration Developer* || GitHub || Live — Feb 2026 – Apr 2026

- AI-driven AIOps platform for automated fault detection, root cause analysis, and intelligent decision support.
- Implemented **federated learning**, SHAP-based recalibration, and confidence-based AI recommendations.
- Integrated scalable backend services using modern AI workflows and data processing techniques.

LawMate: Legal Case Management System || *Full Stack Developer* || GitHub || Live — Jan 2026 – Apr 2026

- Built a **MERN-based legal management platform** for managing cases, hearings, and documents digitally.
- Developed a client portal with **real-time case tracking**, secure authentication, and role-based access control.
- Implemented document handling and scalable APIs for efficient legal workflow management.

HEALIS and MediSync || *Backend Developer* || GitHub || Live — Oct 2025 – Nov 2025

- Developed a **paperless healthcare ecosystem** connecting doctors, pharmacies, labs, and patients.
- Integrated AI-powered features for digital prescriptions and intelligent healthcare assistance.
- Designed secure data flow and seamless communication between healthcare stakeholders.

Achievements

- **Institute Topper** – Ranked **1st** in Computer Engineering during both the **1st** ,**2nd** and **3rd** years.
- **Scholarships** – Lexmark Scholarship | Federal Bank Hormis Memorial Scholarship | Vidyasaarathi Scholarship.
- **Winner** – SRiJAN 2026 by ATOS; AI-driven platform for intelligent application support and operations automation.
- **Finalist** – Ensylon AIOps Challenge 2026; Top 5 team for AI-powered AIOps.
- **Finalist** – PEC Hacks 2.0; developing an innovative technology solution under hackathon conditions.
- **Winner** – Institute Project Competitions in **DBMS**, **DSA**, **Data Science, and Big Data Analytics**.
- **Zonal Round** – Avishkar Research Convention for SAKSHAM, an Online Self-Defence Training Program and Simulator.

Positions of Responsibility

- **Editorial Head**, CSI Student Chapter KKWIEER (2025–26) – Content creation and documentation.
- **Management Head**, Google Gemini Student Club (2025–26) – Managed operations and events.
